

# Reports and Views

The View Reports page provides information for all generated reports for the selected reporting year. This page gives access to the report status, report receipts, a public and private report, and the trend report. When selected, each report format opens in a new window.

## Accessing View Reports

To access the View Reports page, click the “View Reports” link on the Facility or Supplier Overview page.

**AN ANNUAL REPORT IS EXPECTED FOR REPORTING YEAR 2020**

EPA expects that this facility or supplier will submit an annual report for Reporting Year 2020.

An annual report for Reporting Year 2020 has already been submitted. If this facility or supplier should not have submitted an annual report for Reporting Year 2020, please [contact the GHGRP Help Desk](#) to request the report be withdrawn. Please be prepared with the facility or supplier's GHGRP ID and the Reporting Year to be withdrawn.

**NOTIFICATION TO DISCONTINUE REPORTING FOR REPORTING YEAR 2021**

If this facility or supplier will not submit an annual report for Reporting Year 2021 you are required to notify EPA as such by March 31, 2021, indicating the reason. Please provide a reason using the link below:

## Full and Public Reports

The Full and Public Reports allow you to view your data for the selected reporting year and version.

There are two views available:

- Full Report - allows you to view all the data entered in the Annual GHG Report

- Public - allows you to view the non-CBI version of the Annual GHG Report that will be published on EPA's [Facility Level Information on Greenhouse Gases Tool \(FLIGHT\)](#) and EPA's [Envirofacts](#). For information on GHGRP Confidential Business Information (CBI) determinations and what data is released to the public, please see the [Confidential Business Information](#) page.

Both of these reports are available in HyperText Markup Language (HTML) and Extensible Markup Language (XML) formats. The HTML format provides a "human readable" view of the report through a web browser. The XML format provides the XML version of the data.

## Trend Report

The Trend Report allows reporters to view changes in a facility's reported emissions over time. These reports display the emissions data from the selected year compared to previous years. Viewing these reports allows reporters to compare data for potential outliers and mistakes in the selected report as well as review trends over time.

There are two different Trend Reports available:

- Trend by Gas - allows you to view a detailed comparison of the emissions and supply of each gas for each subpart in the selected year's Annual Report to previous years' certified submissions.
- Trend by CO2e - allows you to view a comparison of carbon dioxide equivalent (CO2e) total emissions and supply in the selected year's Annual Report to the previous years' certified submissions.

Note: Both reports are presented in PDF format. For more information about viewing PDFs, see [About PDF Viewers](#).
