

Overview of Security Questions

>> [Click this link to expand](#)

The screenshot shows the e-GGRT Security Question Setup page in a smaller window. It features the EPA logo and navigation tabs for HOME, FACILITY REGISTRATION, and FACILITY MANAGEMENT. A message box states: "SECURITY QUESTION SETUP IMPORTANT - Please read the following message! EPA's Central Data Exchange (CDX) has implemented new, strengthened security measures that affect all e-GGRT account holders. To comply with the new security measures, please select three (3) security questions and provide answers to each. These questions will be used to assist you with account management activities (e.g., resetting or recovering your password) in the future. These new security questions and answers will replace your current e-GGRT 'secret' question and answer." Below this, there are three rows for "Security Question 1*", "Security Question 2*", and "Security Question 3*", each with a dropdown menu and a text input field for the answer. "CANCEL" and "SAVE" buttons are at the bottom.

The screenshot shows the e-GGRT Security Question Setup page in a larger window. It features the EPA logo, navigation tabs for HOME, FACILITY REGISTRATION, and FACILITY MANAGEMENT, and the e-GGRT logo with the text "Electronic Greenhouse Gas Reporting Tool". A message box states: "SECURITY QUESTION SETUP IMPORTANT - Please read the following message! EPA's Central Data Exchange (CDX) has implemented new, strengthened security measures that affect all e-GGRT account holders. To comply with the new security measures, please select three (3) security questions and provide answers to each. These questions will be used to assist you with account management activities (e.g., resetting or recovering your password) in the future. These new security questions and answers will replace your current e-GGRT 'secret' question and answer." Below this, there are three rows for "Security Question 1*", "Security Question 2*", and "Security Question 3*", each with a dropdown menu and a text input field for the answer. "CANCEL" and "SAVE" buttons are at the bottom.

EPA's Central Data Exchange (CDX) implemented strengthened security measures that affect all e-GGRT account holders. To comply with the security measures, new users are required to select three (3) security questions and provide answers to each during e-GGRT user registration. These questions will be used to assist you with account management activities (e.g., resetting or recovering your password) in the future.

These security questions and answers replaced the old e-GGRT "secret" question and answer.

If you are attempting to retrieve your user name or reset your password and are unable to successfully answer your security question you will need to contact the CDX Help Desk at 1-888-890-1995. The GHGRP Help Desk cannot provide assistance with security question issues.
