

# Q798. When is a facility eligible to stop reporting?

## Q798. When is a facility eligible to stop reporting?

**A798.** According to 40 CFR Part 98.2(i) of the General Provisions, in general, once a facility is subject to the GHGRP they are required to continue to report every year. A facility is eligible to stop reporting if:

- (a) Operations have ceased,
- (b) Operations are changed such that a process or operation no longer meets the "Definition of Source Category" as found in a subpart,
- (c) The entire facility or supplier is merged into another facility or supplier that is already reporting to the GHGRP,
- (d) The facility reported emissions or quantity of GHG supplied of less than 15,000 metric tons CO<sub>2</sub>e for 3 consecutive years, or
- (e) The facility reported emissions or quantity of GHG supplied of less than 25,000 metric tons CO<sub>2</sub>e for 5 consecutive years

Facilities that discontinued reporting for a valid reason are marked with a grey facility icon in FLIGHT.
