Subpart H Kiln Information for Kilns Monitored by CEMS for RY2014 and Later Years

This page provides step-by-step instructions on how to enter and edit Subpart H Cement Production kiln information for kilns that are monitored by CEMS.

Step 1: Add a kiln

To add a kiln that is monitored by CEMS, find the CEMENT KILN SUMMARY (Cement Kilns Monitored by CEMS) table on the Subpart Overview page and click the link titled "ADD a Cement Kiln Monitored by CEMS."

To edit identification information for a kiln, click the edit icon or the Name/ID link located in the first column of the table.

To delete a kiln, click the delete icon or the red "X" icon located in the last column of the table.

Step 2: Indicate CEMS utilization for a kiln

For each kiln that is monitored by CEMS at your facility, confirm whether or not the kiln utilizes CEMS.

Note that when adding a new kiln you are prompted to answer the CEMS question immediately (the answer to this question will default to "No" for kiln added using the "ADD a Cement Kiln" link and will default to "Yes" for units added using the "ADD a Cement Kiln Monitored by CEMS" link).

The CEMS response may be changed here and the kiln information will be relocated to the appropriate table on the Subpart Overview page.

When finished, click SAVE to save your data, then click BACK TO OVERVIEW to return to the Subpart Overview page.

Step 3: Enter required information for a kiln

For each kiln that is monitored by CEMS at your facility, Subpart H requires you to report a unique identifier and optional description
