- Using e-GGRT for Subpart BB reporting

Fee FI Foley Corporation

Subpart BB: Silicon Carbide Production (2014)

Subpart Overview

OVERVIEW OF SUBPART REPORTING REQUIREMENTS

Subpart BB requires affected facilities to report carbon dioxide (CO₂) process emissions from all silicon carbide process units or furnaces combined. If you are subject to other subparts (e.g. Subpart C) you should return to the Facility Overview page, select the appropriate subpart(s) and complete the data reporting requirements of each subpart. To satisfy the Subpart BB reporting requirements you will first download the Subpart BB reporting form(s). Use the link provided to access the form(s) and find instructions for completing those forms. Next, you will upload the completed form(s). Finally, you must enter the total amount of Subpart BB emissions, in metric tons, for your entire facility. For additional information about Subpart BB reporting, please use the e-GGRT Help link(s) provided.

SUBPART BB SUMMARY INFORMATION FOR THIS FACILITY

FACILITY'S INPUTS VERIFIER FILE

No inputs verifier file exists

Instructions: No Inputs Verifier file exists because you have not yet begun data entry of equation inputs. After entering equation inputs you will be able to save a file copy of the inputs you have entered to your computer. **It is important to save a copy before you log off as e-GGRT will not save or store equation inputs data!** For more information use the "What is the Inputs Verifier File?" link provided.

Methodology: Emissions not calculated using CEMS ([Change to CEMS](#))

SILICON CARBIDE PRODUCTION

Entering Data Using IVT

If you have previously entered these inputs and saved your inputs file locally you should import your locally saved inputs file. If you are having trouble locating your inputs file or would like to "Reset" and recreate your inputs file, please review our help content reviewing these processes at [Reloading Your Inputs Verifier File](#) or [Resetting your Facility To Create a New Inputs Verifier file](#).

Once you enter the Inputs Verifier Tool (IVT) module you will note that these screens are formatted with a grey background and an Inputs Verifier Tool header. Here you are asked to provide emissions inputs to allow the IVT to calculate emissions.

Subpart BB: Silicon Carbide Production (2017)

Subpart Overview • To: BB-1000-2

EQUATIONS BB-1 AND BB-2 INPUTS

Use this page to enter the inputs to Equations BB-1 and BB-2 for silicon carbide production. The inputs to equations will be used for verification purposes only, and will not be stored by EPA. The results of the verification checks, the verification summary, iterations from the "Subpart Overview" page will be stored by EPA. For additional information about the data collected on this page, please see the e-QUEST Help (link).

SUBMIT INFORMATION

Methodology: Emissions not calculated using CEMS

EQUATIONS BB-1 AND BB-2

Equation BB-1 $EF_{CO_2} = 0.95 + CO_2 \times \left(\frac{24}{17} \right)$

Equation BB-2 $CO_2 = \sum_{m=1}^{12} \left[T_m \times EF_{CO_2}(T_m) \right] \times \frac{2000}{1000}$

 Results entered in this table will not be stored by EPA.

Month ¹	Carbon content factor for production (enter conversion to weight fraction for use in Equation BB-1) (concentrations for weight, expressed as a decimal fraction)	Production (enter consumption in weight) (Equation BB-2)
1/ January	CO ₂	T _m
2/ February	CO ₂	T _m
3/ March	CO ₂	T _m
4/ April	CO ₂	T _m
5/ May	CO ₂	T _m
6/ June	CO ₂	T _m
7/ July	CO ₂	T _m
8/ August	CO ₂	T _m
9/ September	CO ₂	T _m
10/ October	CO ₂	T _m
11/ November	CO ₂	T _m
12/ December	CO ₂	T _m

SAVE **RESET**

¹ If there was no silicon carbide production for the entirety of a given month please provide the loss for that month and e-QUEST will not expect inputs to be entered.

Subpart BB: Silicon Carbide Production (2017)[Subpart Overview](#) » [Eq. BB-1/BB-2](#)**EQUATIONS BB-1 AND BB-2 INPUTS**

Use this page to enter the inputs to Equations BB-1 and BB-2 for silicon carbide production. The inputs to equations will be used for verification purposes only, and will not be stored by EPA. The results of the verification checks (the verification summary, viewable from the "Subpart Overview" page) will be stored by EPA. For additional information about the data collected on this page, please use the e-GGRT Help link(s) provided.

SUBPART INFORMATION

Saving and Reloading Your Inputs Verifier File

As you enter data into the Inputs Verifier Tool (IVT), the system creates and "inputs file" that contains all the data that you entered into IVT. You must save your inputs file to your computer or other location that you designate. On each subsequent log in, you will be prompted to temporarily upload the latest version of the inputs file to e-GGRT. **e-GGRT will not save data entered into the IVT. Users are responsible for saving their facility's inputs file.** This page shows how the IVT assists users with this task.

The following example demonstrates how the inputs to equations are 1) entered, 2) saved locally, 3) temporarily loaded at a later session, 4) the screen errors you may receive, and 5) error messages you may receive if you attempt to open an inputs file that is not the most recent one saved for your facility.

If you are having trouble locating your inputs file or would like to "Reset" and recreate your inputs file, please review our help content reviewing these processes at [Reloading Your Inputs Verifier File](#) or [Resetting your Facility To Create a New Inputs Verifier file](#).

To access the inputs verifier tool, users would log in to e-GGRT with their username and password, select their facility, and navigate to the "Data Reporting" section of e-GGRT.

The screenshot shows the e-EGRT web application interface. At the top, there is a navigation bar with links for HOME, FACILITY REGISTRATION, FACILITY MANAGEMENT, DATA REPORTING, EPA REPORTS, and HELP DESK. The main content area is titled "Subpart 9: Lime Manufacturing (2014)" and includes a "Subpart Overview" link. A table displays the facility's annual CO₂ emissions, showing a value of 86,163.4. Below this, there is a section for "FACILITY'S REPORTS VERIFIED FILE" with a link to "View Input Data Locally". The "EQUATION 5-4 SUMMARY AND RESULT" section shows the formula for annual CO₂ emissions, with a result of 86,163.4 (short tons). A red box highlights the "Annual lime production capacity for the entire facility" field, which is set to 12 (short tons). The "ADDITIONAL EMISSIONS DATA" section includes fields for "Annual lime production capacity for the entire facility" (12), "Was CO₂ used on site?" (Yes), and "Was CO₂ used on site?" (No).

SAVE

On the Data Reporting tab for the selected subpart, immediately below a reported emissions value, the user will find a button labeled "Use Inputs Verifier to calculate| GO". Clicking GO will open the inputs verifier tool for that reported emissions value. Please note that screens in the inputs verifier tool are clearly marked with a unique header indicating that you are using the IVT (shown below with red outline).

The screenshot displays the EPA C-GGRT Inputs/Verifier Tool interface. At the top, there is a header with the EPA logo and the text "C-GGRT Inputs/Verifier Tool". Below the header, there is a "Data Entry" section with a table for "Emissions Data". The table has columns for "Entity", "Year", "Emissions", and "Unit". There are also buttons for "Add", "Edit", and "Delete". Below the table, there is a "Verification" section with a table for "Verification Data". This table has columns for "Entity", "Year", "Emissions", "Unit", and "Status". There are also buttons for "Add", "Edit", and "Delete". At the bottom of the interface, there is a progress bar and a "Save" button.

[SAVE](#)

Saving Data Entered in the IVT

Data entered into the inputs verifier module are **NOT** saved in e-GGRT. Only the output values from the inputs verifier module are saved in e-GGRT. **Therefore, each user/facility will have to save their inputs verifier file to their local hard drive and keep track of the file for future use.** On the top of each IVT screen, immediately below the grey box, IVT will present the save status of your FACILITY'S INPUTS VERIFIER FILE (File History), which contains the data entered into the inputs verifier module. To use e-GGRT in the future for your facility, you must save this file in a place where you can access it. This status box is also available on the Facility Overview page. Prior to saving your inputs verifier file, this section of the screen will state **"Inputs Data Not Saved"** in red letters and will provide the "Last Saved File" field. Click **"Save Inputs Data"** to save the inputs verifier file to your computer. This status box appears on many pages throughout e-GGRT and IVT so that it is easy for you to save inputs. However, you only need to save inputs at the completion of each data entry session.

After clicking **"Save Inputs Data"**, you will be able to save the inputs verifier file to your computer. Please note that different browsers may allow the user to set file-saving preferences and default locations. The example shown below uses the Firefox browser. Each user's save dialog box and defaults may appear differently, depending on the browser used. For information on browser-specific behaviors please refer to [Browser-specific issues and behaviors](#).

>> [Click this link to expand](#)

Once you have saved the file, the inputs verifier file status box will display **"Inputs Data Saved"** in green text and the "Saved By (Date):" field that shows the name of the user who most recently saved an inputs verifier file and the date and time." Each time you click "Save Inputs Data Locally", the IVT will record that you have saved your inputs verifier file. The IVT does not record where you save your inputs verifier file or whether you elect to cancel this action.

Reloading an Inputs Verifier File

When you come back to e-GGRT in a later session, you will return to the FACILITY or SUPPLIER OVERVIEW web form. Here you will see the box for the FACILITY'S INPUTS VERIFIER FILE (File History), with the message that **"Inputs Data Not Loaded"** in red text. To load an inputs verifier file that has been previously saved, click the link labeled **"Temporarily Load Inputs Data"**. Then browse to and select the inputs verifier file saved locally (to your local computer or local network drive). The IVT will accept the ZIP file or XML file previously downloaded by the user or a copy of that file (note: this file may be renamed but its contents must be identical). Finally, click the **IMPORT** button to load the file to the inputs verifier tool.

>> [Click this link to expand](#)

Temporarily load Inputs Verifier data

Last Saved File: 515408-Subpart_C-2015-v4.0.5

Saved By (Date): Vincent Vega (February 17, 2016 10:52 AM)

To proceed, locate the Last Saved File above with the Browse (or Choose File) field below and click LOAD.

Choose File | No file chosen

LOADCANCEL

If you are unable to locate the Last Saved File above, or know it to be lost:

1. You may load an older version of your inputs file. Doing so will require the system to re-calculate and re-validate all equations based on the inputs contained in that inputs file version.

2. You may "reset" your facility. The reset process will enable you to enter this subpart; but, the reset process will remove ALL previously calculated Inputs Verifier Tool results and will require you to re-enter ALL Inputs Verifier Tool equation inputs data for ALL of this facility's subparts.

RESET FACILITY

Temporarily load Inputs Verifier data

Last Saved File: 515408-Subpart_C-2015-v4.0.5

Saved By (Date): Vincent Vega (February 17, 2016 10:52 AM)

To proceed, locate the Last Saved File above with the Browse (or Choose File) field below and click LOAD.

Choose File | No file chosen

LOADCANCEL

If you are unable to locate the Last Saved File above, or know it to be lost:

1. You may load an older version of your inputs file. Doing so will require the system to re-calculate and re-validate all equations based on the inputs contained in that inputs file version.

2. You may "reset" your facility. The reset process will enable you to enter this subpart; but, the reset process will remove ALL previously calculated Inputs Verifier Tool results and will require you to re-enter ALL Inputs Verifier Tool equation inputs data for ALL of this facility's subparts.

RESET FACILITY

If the user attempts to reload an inputs verifier file that is not the one most recently saved for the facility, the user will receive the following warning message. The system prevents the user from accidentally loading an outdated file and thus losing the most recent data. Note that you may elect to choose "I Would Like to Upload this File" and the system will attempt to reconcile all validation messages and IVT calculations (which are based on the most recently-saved file) based on the inputs contained in the old file that you are electing to load. **If you elect to proceed to upload an old file, it is highly recommended that you review all equation inputs and calculations to ensure your annual report is complete and accurate.**

>> [Click this link to expand](#)

The Inputs Verifier File you are attempting to load is not the last saved file. It is strongly recommended that you locate the last saved file in order to ensure that you do not lose any previously completed work. You may refer to the following help content if you are having trouble locating your most recent file: [Finding Last Input Files](#). If you would like to try again with a different file, please click CANCEL. If you would like to load this file, the system will re-calculate and re-validate all equations based on the inputs contained in this file and you will be prompted to re-save a local copy of this inputs file. If you proceed with this option, you should review all equation inputs and calculations to ensure your annual report is complete and accurate.

CANCEL

I WOULD LIKE TO UPLOAD THIS FILE

The Inputs Verifier File you are attempting to load is not the last saved file. It is strongly recommended that you locate the last saved file in order to ensure that you do not lose any previously completed work. You may refer to the following help content if you are having trouble locating your most recent file: Finding Lost Input Files. If you would like to try again with a different file, please click CANCEL. If you would like to load this file, the system will re-calculate and re-validate all equations based on the inputs contained in this file and you will be prompted to re-save a local copy of this inputs file. If you proceed with this option, you should review all equation inputs and calculations to ensure your annual report is complete and accurate.

CANCEL

I WOULD LIKE TO UPLOAD THIS FILE

Screen Errors You May Receive

When attempting to save inputs data during the IVT data entry process, the user may receive screen errors that indicate the user has not completely entered required data to the Inputs Verifier Tool. Screen errors must be corrected before you will be permitted to complete a save action. Once you have corrected these errors, IVT will be able to calculate the equation result and you will be able to save your inputs verifier file locally.

>> [Click this link to expand](#)

The screenshot displays the EPA e-GGRT Inputs Verifier Tool interface. At the top, the EPA logo and "e-GGRT Inputs Verifier Tool" are visible. The user is logged in as "Admin". The main heading is "Subpart 5: Lime Manufacturing (2014)". Below this, there are tabs for "Equation Overview", "Equation 5: Screen Error Information", and "Equation 5: Inputs". The "Equation 5: Screen Error Information" tab is active, showing a "SCREEN ERROR" for "Equation 5-1: PRODUCT INPUTS". The error message states: "Inputs Data Not Saved. A file has not yet been saved for this facility. Be sure to use the 'Save Inputs Data Locally' link to save a copy of your equation inputs data before you log off as e-GGRT will not save or store equation inputs data." Below the error message, there is a "Save Inputs Data Locally" link. The interface also shows the "EQUATION INPUTS (OF 2)" section, which includes a table for "Product or By-Product Name (type)" and "Product 1 (product)". The table has columns for "Product Name", "Product Type", and "Product Status". The "Product 1 (product)" row shows "all inputs entered". Below the table, there are tabs for "Equation 5: Summary", "Equation 5: Inputs", and "Equation 5: Results". The "Equation 5: Summary" tab is active, showing the "SCREEN ERROR" for "Equation 5-1: PRODUCT INPUTS". The error message is repeated: "Calculation could not be performed for July, determined according to (2014-10-10). This data entered is required. Please enter the required data or click CANCEL." Below the error message, there is a "Save Inputs Data Locally" link. Angkor

Subpart S: Lime Manufacturing (2014)

[Subpart Overview](#) » [Subpart S Summary Information](#) » [Equation S-1 Inputs](#)

EQUATION S-1 PRODUCT INPUTS

Use this page to enter the inputs to equation S-1. The inputs to equations will be used for verification purposes only, and will not be stored by EPA. The results of the verification checks (the verification summary, viewable from the "Subpart Overview" page) will be stored by EPA.

FACILITY'S INPUTS VERIFIER FILE

[What is the Inputs Verifier File?](#)

Inputs Data Not Saved

A file has not yet been saved for this facility. Be sure to use the "Save Inputs Data Locally" link to save a copy of your equation inputs data before you log off as e-GGRT will not save or store equation inputs data!

SCREEN ERRORS

 Calcium oxide content for July, determined according to §98.194(c). This data element is required. Please enter the required data or click CANCEL.

$$\text{Equation S-1: } EF_{\text{LIME},i,n} = \left[\left(SR_{\text{CaO}} \times CaO_{i,n} \right) + \left(SR_{\text{MgO}} \times MgO_{i,n} \right) \right] \times \frac{2000}{2205}$$

Hover over an element in the equation above to reveal a definition of that element.

JANUARY

Calcium oxide content, determined according to §98.194(c) (metric ton CaO/metric ton lime) [Make all months same](#)
will not be stored by EPA

Magnesium oxide content, determined according to §98.194(c) (metric ton MgO/metric ton lime) [Make all months same](#)
will not be stored by EPA

Emission factor for lime type 1.7021 (metric tons CO2/ton lime)
(calculated input to Equation S-4)

If the user inputs and saves data in IVT, then adds, deletes, or updates one or more inputs to an equation in IVT without saving the inputs file locally and subsequently attempts to log out of e-GGRT, the following warning message will be displayed.

>> [Click this link to expand](#)

WARNING! You have not saved data entered into the Inputs Verifier Tool.

If you wish to save this data before logging out, click **SAVE INPUTS** to return to e-GGRT. If you proceed to logout this data will be discarded as it is not saved by e-GGRT.

[SAVE INPUTS AND LOGOUT](#) [LOGOUT - DISCARD EQUATION INPUTS DATA](#) [CANCEL](#)

WARNING! You have not saved data entered into the Inputs Verifier Tool.

If you wish to save this data before logging out, click **SAVE INPUTS** to return to e-GGRT. If you proceed to logout this data will be discarded as it is not saved by e-GGRT.

[SAVE INPUTS AND LOGOUT](#)

[LOGOUT - DISCARD EQUATION INPUTS DATA](#)

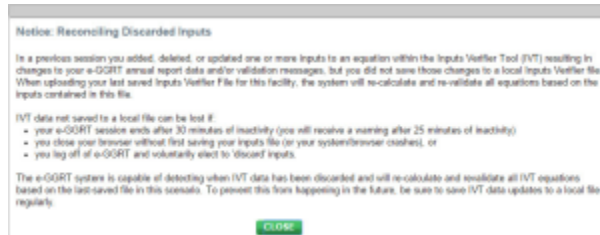

[CANCEL](#)

The user has three options:

- **SAVE INPUTS AND LOGOUT** - after clicking this button, the user is prompted to save the inputs file locally. Once the file has been saved, the user is logged out of e-GGRT.
- **LOGOUT - DISCARD EQUATION INPUTS DATA** - the most recent changes to the inputs data are discarded and the user is automatically logged out of e-GGRT. The inputs file is NOT saved.
- **CANCEL** - the user is returned to e-GGRT. The inputs file is NOT saved. Note that if the user clicks CANCEL and does not save the inputs file locally and later attempts to logout, the warning message will be displayed again).

If the user clicked the **LOGOUT - DISCARD EQUATION INPUTS DATA** button in a previous session, the following message will be displayed the next time the user logs in.

>> [Click this link to expand](#)

Notice: Reconciling Discarded Inputs

In a previous session you added, deleted, or updated one or more inputs to an equation within the Inputs Verifier Tool (IVT) resulting in changes to your e-GGRT annual report data and/or validation messages, but you did not save those changes to a local Inputs Verifier file. When uploading your last saved Inputs Verifier File for this facility, the system will re-calculate and re-validate all equations based on the inputs contained in this file.

IVT data not saved to a local file can be lost if:

- your e-GGRT session ends after 30 minutes of inactivity (you will receive a warning after 25 minutes of inactivity)
- you close your browser without first saving your inputs file (or your system/browser crashes), or
- you log off of e-GGRT and voluntarily elect to 'discard' inputs.

The e-GGRT system is capable of detecting when IVT data has been discarded and will re-calculate and revalidate all IVT equations based on the last-saved file in this scenario. To prevent this from happening in the future, be sure to save IVT data updates to a local file regularly.

CLOSE

To load an inputs verifier file that has been previously saved (as would occur if you logged off and came back to e-GGRT in a later session), the user would click the link labeled **"Temporarily Load Inputs Data"**. The user would browse to and select the inputs verifier file saved locally (to their local computer or local network drive). The IVT will accept the ZIP file or XML file previously downloaded by the user or a copy of that file (note: this file may be renamed but its contents must be identical) . The user would then click the **IMPORT** button to load the file to the inputs verifier tool.

FACILITY'S INPUTS VERIFIER FILE

[What is the Inputs Verifier File?](#)

Inputs Data Not Loaded

[Temporarily Load Inputs Data](#)

Last Saved File: 516069-MLH__Resources-2014.xml

Saved By (Date): M Huppert (October 20, 2014 11:28 AM)

If you attempt to reload an inputs verifier file that is not the one most recently saved for the facility, the user will receive the following warning message. The system prevents the user from accidentally loading an outdated file and thus losing the most recent data. Note that you may elect to choose "I Would Like to Upload this File" and the system will attempt to reconcile all validation messages and IVT calculations (which are based on the most recently-saved file) based on the inputs contained in the old file that you are electing to load. **If you elect to proceed to upload an old file, it is highly recommended that you review all equation inputs and calculations to ensure your annual report is complete and accurate.**

The Inputs Verifier File you are attempting to load is not the last saved file. It is strongly recommended that you locate the last saved file in order to ensure that you do not lose any previously completed work. You may refer to the following help content if you are having trouble locating your most recent file: [Finding Lost Input Files](#). If you would like to try again with a different file, please click CANCEL. If you would like to load this file, the system will re-calculate and re-validate all equations based on the inputs contained in this file and you will be prompted to re-save a local copy of this inputs file. If you proceed with this option, you should review all equation inputs and calculations to ensure your annual report is complete and accurate.
