

# Subpart E Unit Information for an Administrator-Approved Alternative Method

This page provides a step-by-step description of how to add unit information for a subpart E adipic acid production facility for which an Administrator-approved alternative method is used to estimate emissions.

## Step 1. Add an Adipic Acid Production Unit

From the Subpart E Overview page, click on the Add a Unit link beneath the UNIT SUMMARY table.

>> [Click this link to expand](#)

The screenshot shows the e-GGRT interface for a facility named "DR Enterprises - TEST". The page title is "Subpart E: Adipic Acid Production (2014)". Under the heading "OVERVIEW OF SUBPART E REPORTING REQUIREMENTS", it states that Subpart E requires reporting nitrous oxide (N<sub>2</sub>O) emissions from adipic acid production facilities. A text box for "Annual mass of N<sub>2</sub>O (metric tons)" is visible. Below this, the "Method" is listed as "Administrator-approved alternate method" with a "CHANGE" button. A "SUBPART E SUMMARY INFORMATION FOR THIS FACILITY" table shows "N<sub>2</sub>O emissions (metric tons)" and "N<sub>2</sub>O emissions sold/transferred (metric tons)". At the bottom, a "UNIT SUMMARY" table has a header "Unit Name/ID" and a "Delete" button. A link to "ADD a Unit" is located below the table.

This is an expanded view of the e-GGRT Subpart E Overview page. The header includes the EPA logo, "United States Environmental Protection Agency", and the e-GGRT logo with the text "Electronic Greenhouse Gas Reporting Tool". Navigation tabs for "HOME", "FACILITY REGISTRATION", "FACILITY MANAGEMENT", and "DATA REPORTING" are present. The user is logged in as "Hello, Richard Richards". The main content area is titled "DR Enterprises - TEST" and "Subpart E: Adipic Acid Production (2014)". It includes a "Subpart E Overview" section with an "OVERVIEW OF SUBPART E REPORTING REQUIREMENTS" box and a "Subpart E: View Validation" button. The "Method" is "Administrator-approved alternate method" with a "CHANGE" button. Below is a "SUBPART E SUMMARY INFORMATION FOR THIS FACILITY" table with columns for "N<sub>2</sub>O emissions (metric tons)" and "N<sub>2</sub>O emissions sold/transferred (metric tons)", and an "OPEN" button. The "UNIT SUMMARY" table has a header "Unit Name/ID" and a "Delete" button. A link to "ADD a Unit" is located below the table. The footer contains a "Paperwork Reduction Act Burden Statement | Contact Us" link and the text "e-GGRT RY2014.R22 | E-subtype".

This action takes you to the Add/Edit Unit page shown below.

**OVERVIEW OF SUBPART E REPORTING REQUIREMENTS**

Subpart E requires affected facilities to report nitrous oxide (N<sub>2</sub>O) emissions from adipic acid production facilities. Use this page to identify each unit. Then enter Greenhouse gas (GHG) data required by Subpart E for each. For additional information about Subpart E reporting, please use the e-GGRT Help link(s) provided.

## Step 2. Enter Unit Information

Enter the following information on the Add/Edit Unit page:

- A unique name or identifier (see also [About Unique Unit Names](#))
- An optional description of the unit

Click on SAVE to return to the Subpart E Overview page.

Repeat Steps 1 and 2 for each adipic acid production unit at your facility.
