

Subpart E/V Administrator-approved Alternative Method Instructions for RY2015 and Future Years

This page provides step-by-step instructions on how to enter and edit a Subpart E/V request submission including:

- Adding/Editing Subpart E/V
- Uploading file
- Submitting and Certifying Subpart E/V Request

If you are an owner or operator subject to Part 98 Subpart E (40 CFR 98.50) or Subpart V (40 CFR 98.220) and are applying to the EPA Administrator to use an alternate method to calculate your annual process-related N₂O emissions from Adipic Acid or Nitric Acid production for Reporting Year 2015 or later, you must submit your request electronically using a specific form ([Alternate Method Optional App.pdf](#)) and the e-GGRT module described below. For more information on the requirements for these sectors please see our [Subpart E information page](#) or our [Subpart V information page](#).

Step 1: Adding/Editing Subpart E/V

In e-GGRT, select the facility for which you wish to request an Administrator-approved Alternative Method from the Facility Management page. Next, access the e-GGRT Subpart E/V submission page for the selected facility by selecting "Subpart E/V: Request use of Administrator-approved Alternative Method" at the bottom.
