

Entering Phosphate Rock Origin for RY2014 and Later

For type of phosphate rock used in the unit, report the following required information:

- Origin (select from the pick list)
- Annual amount of Phosphoric acid production produced
- Annual arithmetic average percent inorganic carbon OR the annual arithmetic average percent carbon dioxide (derived from monthly sampling records)
- Annual amount of rock consumed
- Indicate by month:
 - if the inorganic carbon content value was a substitute data value?
 - if yes, the method used to estimate any missing values of inorganic carbon content
 - if the mass consumed value was a substitute data value?
