

Leak Detection and Equipment Leaks

Leak Detection and Equipment Leaks

- Q605. Can data from a state permit-required fugitive emissions monitoring program already in place, which has a lower leak detection rate of 500 ppm, be used to estimate fugitive greenhouse gas emissions under §98.233(q)?
- Q606. Does 98.233(q), "Leak detection and leaker emission factors," apply to wellheads, separators at well site, storage tanks and other equipment defined by "production equipment"?
